Hiring Manager

Canonical

Dear Hiring Manager,

I am writing to apply for the X position at Y. With a Bachelor's degree in Engineering and over 9 years of experience in data engineering, data science, AI/ML, software development, and team leadership, I am confident that I have the qualifications and expertise required to excel in this role.

In my current position as an Engineering Manager (Data) at Majid Al Futtaim, I lead Core Data team responsible to manage central data infrastructure for MAF. I've a knack for building and scaling highly productive teams, systems and data products. I'm passionate about open source, developer experience and systems engineering. Consistently promoted and selected among top 1% performers, resulting in continuous development and role expansion.

What sets me apart as an engineering manager is my ability to balance technical expertise with strong leadership and communication skills. I am passionate about mentoring and developing team members to reach their full potential, and have a reputation for creating a positive and productive work environment. I believe that my ability to build strong relationships with cross-functional teams, stakeholders, and clients would enable me to drive success at Y.

I am excited about the opportunity to bring my skills and experience to Y and contribute to its growth and success. Thank you for your time and consideration, and I look forward to hearing from you soon.

Sincerely,

Harmanjeet Singh (Harman)
